3 May 2016

Dear Wayne

Thank you for your email of 12 April.

I was pleased to hear about the excellent work being done by Local Works in delivering education and employment skills to young people in Hull. I strongly believe that voluntary and community organisations, such as yours, have a hugely important role in supporting young people to fulfil their potential, build character and prepare for adult life.

I was interested to hear about the partnerships Local Works has formed with Police and Crime Commissioners and your work to encourage vulnerable young people to take up sport and work towards qualifications, to reduce unemployment and anti-social behaviour in your community. I was impressed by your depth of experience and dedication in working with young people and I look forward to hearing more about the achievements of Local Works in the future.

Once again, thank you for writing.

*with best wishes
Yours sincerely
Nicky M*
